

Perfection in Timber.

Getting better every day: HS Timber Productions Radauti factory

The Radauti factory is the second production unit built by **HS Timber Productions** in Romania, in 2008.

The beam production line is the most modern in Romania and was specially designed for the Japanese market.

"The beam production line in Radauti is state-of-the-art and the thermo-electric plant using biomass is one of the largest in the country."

Once again, HS Timber Productions proved its commitment to safe jobs, economic growth of the communities it is active in, and sustainability."

Dan Bănac
General Manager
HS Timber Productions

We are HS Timber Group, one of the world's leading wood processing companies. We have more than 2,700 employees working to serve our commercial and industrial customers in 80 markets worldwide. Founded in Austria and managed from Vienna, we develop high-tech products and sophisticated solutions made from wood, the material of the future, at our production sites worldwide.

Did you know that...?

... **planed timber** is primarily used in construction, for both interior and exterior works? It is ideal for fencing, building frames, or making garden furniture.

... **sawn timber** can be used for carpentry products, windows and doorframes that require painting, exterior lining and interior panels?

Radauti sawmill: facts and figures

Established	2008
Plant size	50 ha
Lumber*	870,000 m ³
Kiln drying*	640,000 m ³
Planing*	470,000 m ³
Post and Beams*	250,000 m ³
Pellets*	165,000 t
Combined heat and power plant*	15 MW _{el}
Produces	timber, glued timber, pellets, green energy
Processes	fir, spruce, pine

*Production capacity per year

Unique security architecture: GPS tracking system Timflow

HS Timber Productions only purchases wood from 100% secure sources. We use the Timflow GPS system in Romania, which monitors each saw log truck's exact transport route, from the loading point to the mill gate. This is a voluntary system, surpassing all legal requirements by far. All collected data, including full GPS maps of the route and photos of the loaded trucks before departure, is public on www.timflow.com.

CSR at a glance: Tomorrow's Forest

HS Timber Group and the Tomorrow's Forest Foundation have forged a strategic partnership for joint implementation of environmental and social projects that promote responsible development of Romanian forests and benefit Romanian forestry communities. By entering into this strategic alliance, the HS Timber aims to implement the company's CSR commitment more purposefully and more effectively. Further information can be found on www.padureademaine.ro/en/.
